

Bachelor of Business Administration in Business Management

Name of Programme	Bachelor of Business Administration in Business Management
Programme Overview	Aiming for a leadership role in the global business world? The Bachelor of Business Administration in Business Management provides the strategic mindset and practical skills you need. The programme covers management, finance, marketing, entrepreneurship, operations, and digital transformation, with a strong emphasis on innovation, sustainability, and ethical leadership. Through case studies, collaborative projects, and industry-driven learning, you will gain real-world experience while sharpening critical thinking and problem-solving abilities. Whether your ambition is to launch an entrepreneurial venture or advance in a corporate career, this degree equips you to drive innovation and achieve lasting success.
Admission Requirements	IGCSE/equivalent with 5 Passes including English and Mathematics. Applicants in possession of a Diploma or Higher Diploma in related fields may be given exemptions based on the credit point equivalency.
Technical Requirements	To ensure a smooth and effective learning experience, students enrolling in this programme must meet the following technical requirements: Device Requirements Computer/Laptop: Windows (10 or later) or Mac (macOS 10.15 or later); Processor: Intel i3 (or equivalent) or above; RAM: Minimum 4 GB (8 GB recommended for multitasking); Storage: Minimum 20 GB free space for coursework and downloads; Camera and Microphone: Built-in or external for live sessions and presentations OR Tablet/Smartphone: Suitable for accessing content on the go (limited functionality for assignments/examinations) Internet Requirements Connection speed: Minimum 5 Mbps download and 2 Mbps upload (10 Mbps recommended for seamless video conferencing); Stable Wi-Fi or Ethernet connection recommended for live Zoom sessions Software and Platforms Virtual Live Sessions: Zoom (synchronous learning); Document Processing: Microsoft Office (Word, Excel, PowerPoint) or equivalent (Google Docs) Browser Requirements Supported browsers: Chrome (latest version), Safari (for Mac users); Cookies and JavaScript: Enabled for full Blackboard functionality Additional Tools (Optional but Recommended) Headset: For clear audio during virtual classes; External storage (USB/Cloud): For backups of important coursework; Anti-virus software: To protect against malware or data loss
Typical Full-Time Study Period	4 years
Number of Modules	42 (38 core + 4 elective)
Total Programmes Credits	480
Fees per Programme Credit	\$13
Total Tuition Fee	\$6240

Bachelor of Business Administration in Business Management

SEMESTER 1

Introduction to MS Office

Code: C5-IMO-20	This module equips students with essential digital skills for academic, professional, and personal productivity. It provides practical experience with Microsoft Office applications, fostering proficiency in word processing, spreadsheets, presentations, database management, and email communication to build a strong foundation for effective digital engagement.
Module Fees: \$130	
Module Credits: 10	

Academic Writing for Business

Code: D5-AWB-20	This module develops essential academic writing skills, emphasising paragraph structure, thesis statements, and coherent argumentation. It addresses plagiarism, its implications, and strategies for avoidance. Students also gain competence in referencing, citation techniques, resource evaluation, and the use of tools such as Mendeley to uphold academic integrity.
Module Fees: \$130	
Module Credits: 10	

Business Mathematics and Statistics 1

Code: B5-BS1-17	This module introduces fundamental mathematical concepts such as fractions, percentages, algebra, and their applications in business. It covers basic statistics, including data organisation, measures of central tendency, dispersion, and spreadsheet analysis. Probability concepts, including axioms, distributions, and the standard normal curve, are examined to strengthen quantitative decision-making skills.
Module Fees: \$130	
Module Credits: 10	

Legal Aspects of Business

Code: B5-LAB-20	This module introduces the origins of law and the structure of legal systems, with particular reference to Botswana. It examines both criminal and civil law and explores key areas such as contracts, sales, leases, credit agreements, insurance, agency, employment, intellectual property, negotiable instruments, and business enterprises, providing essential legal foundations.
Module Fees: \$130	
Module Credits: 10	

Introduction to Financial Accounting

Code: A5-IFA-20	This module provides a foundational understanding of financial accounting principles and techniques. Students will be introduced to accounting, financial record preparation, and adjustments aligned with international accounting standards. Emphasising error analysis and financial reporting, the module equips students with essential skills to manage financial records and support informed business decision-making.
Module Fees: \$130	
Module Credits: 10	

Business Management 1

Code: B5-BM1-20	This module introduces business management as a discipline, addressing core concepts, economic systems, and stakeholder roles. It examines the business environment, management functions, and key areas including operations, finance, human resources, and marketing. Leadership principles and theories are explored to build a foundation for sound business strategy and decision-making.
Module Fees: \$130	
Module Credits: 10	

SEMESTER 2

Principles of Marketing

Code: B5-PMK-20	This module introduces the fundamentals of marketing, covering the 7 P's, consumer behaviour, and decision-making processes. It examines market research, segmentation, and targeting strategies, alongside product development, pricing, and promotion. Students gain essential skills to apply marketing principles effectively in dynamic and competitive business environments.
Module Fees: \$130	
Module Credits: 10	

Business Mathematics and Statistics 2

Code: B6-BS2-21	This module develops essential mathematical skills through topics such as quadratic equations, functions, differentiation, and integration. It introduces statistical concepts including sampling distributions, confidence intervals, hypothesis testing, and chi-square tests, while also covering regression analysis, decision theory, and time series forecasting to support data-driven decision-making in business and research.
Prerequisite: B5-BS1-17	
Module Fees: \$130	
Module Credits: 10	

Microeconomics

Code: B6-MIE-17	This module introduces key economic principles, including scarcity, choice, and the functioning of economic systems. It examines demand and supply, market equilibrium, and elasticity, alongside firm behaviour, production costs, and market structures. Externalities, public goods, and income distribution are also addressed, offering insights into economic decision-making and policy development.
Module Fees: \$130	
Module Credits: 10	

Financial Accounting 1

Code: A6-FA1-17	This module introduces accounting principles, financial reporting, and corporate structures. It examines company formation, financial statement preparation, and adjustments in line with IFRS and IAS standards. Key areas include limited liability companies, partnerships, ratio analysis, and asset management, with emphasis on reporting frameworks and financial information for effective decision-making.
Prerequisite: A5-IFA-20	
Module Fees: \$130	
Module Credits: 10	

Business Management 2

Code: B6-BM2-20	This module provides a foundation in management principles, addressing managerial roles, strategic planning, decision-making, and organisational structures. It explores human resource management, change management, diversity, and logistics. Emphasis is placed on adapting to environmental shifts, utilising information systems, and developing skills for sustainable competitive advantage in contemporary business contexts.
Prerequisite: B5-BM1-20	
Module Fees: \$130	
Module Credits: 10	

Customer Relationship Management

Code: B7-CRM-20	This module explores the management of marketing with a focus on Customer Relationship Management (CRM). Students will critically understand CRM principles, their role in business strategy, and the importance of customer service. Through real-world examples, they will apply CRM strategies to acquire, coordinate, and maximize customer relationships effectively.
Module Fees: \$130	
Module Credits: 10	

Bachelor of Business Administration in Business Management

SEMESTER 3

Macroeconomics

Code: B6-MAE-17

Prerequisite: B6-MIE-17

Module Fees: \$130

Module Credits: 10

This module introduces macroeconomic principles, covering economic perspectives, national income measurement, and business cycles. It explores aggregate demand and supply, fiscal and monetary policies, and the role of central banks. Additionally, it examines inflation, unemployment, and international trade, highlighting the impact of economic policies on national and global markets.

Small Business Management

Code: B6-SBM-21

Module Fees: \$130

Module Credits: 10

This module explores the role of small enterprises in economic growth, job creation, and poverty reduction. Students will learn about small business management, funding access, market opportunities, and government incentives. It covers business lifecycles, challenges, and leadership strategies, preparing students to drive small business success and economic development.

Fundamentals of Financial Management

Code: B6-FFM-20

Module Fees: \$130

Module Credits: 10

This module introduces financial management principles, emphasising financial analysis, decision-making, and resource management. Students will explore financial markets, investment risks, capital budgeting, and corporate valuation. Key topics include firm financing, mergers, dividend policy, and international finance. The course equips students with quantitative skills for risk management and working capital optimisation.

Financial Accounting 2

Code: A6-FA2-17

Prerequisite: A6-FA1-17

Module Fees: \$130

Module Credits: 10

This module equips students with the skills to prepare financial statements for single entities and simple groups under IFRS. It covers branch accounts, hire purchase, royalties, and consolidating subsidiaries. Students will apply the IASB framework, prepare cash flow statements, and gain proficiency in IFRS compliance for real-world financial reporting.

Organisational Behaviour

Code: B6-OBE-20

Module Fees: \$130

Module Credits: 10

This module explores organisational behavior, focusing on group dynamics, leadership, motivation, structure, and change management. Students will learn team building, conflict resolution, and labor management while analysing human and organisational interactions. Key topics include stress management, industrial relations, and the systems approach, preparing students to navigate evolving organisational environments effectively.

Business Information Systems

Code: B6-BIS-20

Prerequisite: C5-IMO-20

Module Fees: \$130

Module Credits: 10

This module introduces Business Information Systems (BIS), focusing on how information technology enhances organisational performance and decision-making. Students will learn to manage IT systems, analyse business intelligence, and model information flow. Topics include regulatory issues, system quality, cybercrime, and security, preparing students to manage and apply information systems effectively in business.

SEMESTER 4

Operations Management

Code: B6-OPM-20	This module teaches principles and techniques for efficient production and distribution of goods and services, focusing on minimising waste. Students will explore operations management, including inventory, quality control, logistics, and process optimisation. Key topics include forecasting, scheduling, project management, and quality methods. Students will develop skills in project management, teamwork, and communication.
Module Fees: \$130	
Module Credits: 10	

Computerised Accounting

Code: A6-CAF-17	This module provides students with practical knowledge of accounting software and its use in recording business transactions. Students will learn to record transactions, perform bank reconciliations, and manage inventory and fixed assets. Students will be able to set up a computerised system, generate financial reports, and understand its impact on efficiency and accuracy.
Prerequisite: C5-IMO-20	
Module Fees: \$130	
Module Credits: 10	

Consumer Behaviour

Code: B6-COB-21	This module provides an interdisciplinary understanding of consumer behavior, integrating psychological and sociological theories to inform business strategies. Students will explore key theories and models, applying them to real-world consumer contexts. They will analyse how marketing and promotional activities influence purchasing decisions, equipping them to shape effective business strategies.
Module Fees: \$130	
Module Credits: 10	

Marketing Management

Code: B6-MKT-20	This module provides a comprehensive understanding of marketing management, focusing on coordinating and running marketing activities within an organisation. Students will learn to manage the marketing mix, conduct research, and apply strategies to achieve business objectives and enhance customer satisfaction. Students will be equipped to discuss and apply marketing management principles effectively.
Prerequisite: B5-PMK-20	
Module Fees: \$130	
Module Credits: 10	

Cost Accounting

Code: A6-COA-20	This module introduces key costing principles, including cost behaviour, classification, and the accounting of materials and labour. It covers inventory valuation, overhead allocation, marginal and absorption costing, as well as job, batch, and process costing. Cost-volume-profit analysis, standard costing, variance analysis, and budgeting are also examined to support effective cost control.
Module Fees: \$130	
Module Credits: 10	

Purchasing Management

Code: B6-PMT-21	This module equips students with principles and techniques for efficient procurement, focusing on minimising waste. Students will gain insight on purchase operations, payment processes, inventory management, supplier evaluation, and quality control. Students will learn to apply strategic sourcing, manage supplier relationships, and use negotiation skills to optimise procurement processes and achieve organisational goals.
Module Fees: \$130	
Module Credits: 10	

Bachelor of Business Administration in Business Management

SEMESTER 5

Quality Management

Code: B7-QUM-20	This module provides tutors with a critical understanding of quality management and the skills to implement quality initiatives accurately, ensuring compliance with standards. There is coverage of quality systems, ISO 9000, TQM, and Six Sigma, enabling students to assess and improve quality practices in both product and service environments while addressing regulatory and environmental issues
Module Fees: \$130	
Module Credits: 10	

Corporate Finance

Code: B7-CFI-21	This module teaches students how to raise and manage financial resources within an organisation, focusing on corporate finance techniques. Students will learn to analyse financial accounts, evaluate valuation techniques, and understand the relationship between risk and return. Gaining in-depth knowledge on capital structure, funding sources, mergers, acquisitions, and international finance, preparing students for key financial decision-making.
Prerequisite: B6-FFM-20	
Module Fees: \$130	
Module Credits: 10	

Project Management

Code: B7-PRM-20	This module teaches students essential project management skills, focusing on timelines, deliverables, and key issues like team dynamics, communication, quality control, and risk management. Students will learn core principles, evaluate Project Life Cycle models, apply methodologies, use project management software, and conduct project appraisals using capital budgeting techniques to assess viability and outcomes.
Module Fees: \$130	
Module Credits: 10	

Import and Export Management

Code: B7-IEM-20	This module equips students with the skills to manage the import and export process, covering procedures, documentation, and regulations in international trade. Students will learn key principles of global trade, payment methods, financing, risk management, logistics, and containerisation. The module also emphasises the use of technology to improve efficiency in import-export operations.
Module Fees: \$130	
Module Credits: 10	

SEMESTER 5 ELECTIVE GROUP (CHOOSE TWO)

Managing Consulting

Code: B7-MNC-21	This module offers an interdisciplinary approach to managing consulting in business, equipping students with a deep understanding of consulting practices and strategic implications. Students will learn to manage consultancy processes, navigate the consulting life cycle, balance creativity and methodology, address trust and risk, and apply ethical principles, while exploring consulting career opportunities.
Module Fees: \$130	
Module Credits: 10	

International Business Management

Code: B7-IBM-20	This module introduces students to managing businesses in an international context, focusing on key concepts and practices. Students will learn to navigate international management systems, develop global business intelligence, formulate and implement international strategies, understand regulatory and cultural challenges, and appreciate the complexities of cross-border operations in global environments.
Module Fees: \$130	
Module Credits: 10	

Family Business Management

Code: B7-FBM-20	This module provides an understanding of the dynamics and challenges in managing a family-owned business. Students will learn about family business structures, the advantages and disadvantages of such setups, decision-making processes, and succession planning. It also covers themes like leadership, governance, and managing family relationships for sustainable growth
Module Fees: \$130	
Module Credits: 10	

SEMESTER 6

E-Business

Code: B7-EBS -20	This module explores the relationship between technology and business, focusing on the impact of technological changes like the Internet and eCommerce on business practices. Students will learn e-business models, risks, opportunities, and strategies, including supply chain management, e-marketing, and CRM. The module also covers the design, implementation, and monitoring of e-business systems, ensuring students can effectively manage digital business operations.
Module Fees: \$130	
Module Credits: 10	

Human Resource Management

Code: B7-HRM-20	This module introduces Human Resource Management (HRM) in organisations, focusing on managing human capital strategically. Students will learn HR practices like recruitment, development, employee relations, and health and safety. They will also explore union roles, human capital development, and HR policies to drive organisational success and maintain a safe, productive workplace.
Module Fees: \$130	
Module Credits: 10	

Research Methods in Business

Code: B7-RMB-20	This module explores business and management research, covering epistemology, research strategies, ethics, and proposal development. It examines literature review, research design, data collection methods, and SPSS for analysis. Additionally, it addresses time and resource management, data presentation, and report writing, equipping learners with essential research skills for academic and professional inquiry.
Module Fees: \$130	
Module Credits: 10	

Transport and Logistics Management

Code: B7-TLM-21	This module teaches students the principles and techniques of packaging, distributing goods, and optimising logistics. Topics include transportation and logistics management, integrating logistics with customer care, addressing supply chain challenges, creating competitive advantages, resource management, teamwork, and planning with freight transportation to enhance efficiency and minimise costs.
Module Fees: \$130	
Module Credits: 10	

SEMESTER 6 ELECTIVE GROUP (CHOOSE TWO)

Business Ethics and Corporate Social Responsibility

Code: B7-BEC-20	This module explores the ethical dimensions of business, focusing on governance, corporate social responsibility (CSR), and sustainability. Students will understand the importance of ethics in decision-making, evaluate CSR trends, assess the role of corporate culture and leadership, and address ethical challenges in areas like marketing, governance, and stakeholder relations for long-term success.
Module Fees: \$130	
Module Credits: 10	

Change Management

Code: B7-CHM-20	This module equips students with the skills to manage and navigate organisational change effectively. Students will learn about the stages of change, levels at which it occurs, strategies to manage resistance, assess change readiness, and implement sustainable change management strategies to foster long-term adaptability and organisational success.
Module Fees: \$130	
Module Credits: 10	

Corporate Governance

Code: B7-CGV-20	This module provides students with a comprehensive understanding of corporate governance, focusing on its role in effective organisational management. Students will explore governance principles, global trends, and the OECD guidelines, evaluate the impact of good governance on performance, identify signs of ineffective governance, and address governance challenges in family-owned businesses and board responsibilities.
Module Fees: \$130	
Module Credits: 10	

Brand Management

Code: B7-BMT-20	This module equips students with the essential skills for effective brand management. It covers the principles of branding, brand positioning, and equity, along with strategies for designing and implementing brand marketing programmes. Students will also explore brand management in local and international markets and the growing importance of digital branding.
Module Fees: \$130	
Module Credits: 10	

Bachelor of Business Administration in Business Management

SEMESTER 7

Knowledge Management

Code: B7-KNM-21	This module provides an interdisciplinary understanding of knowledge management and its strategic implications for business managers. Students will critically evaluate knowledge management concepts and applications, design effective strategies to foster organisational learning, and learn to manage the implementation of knowledge management processes to enhance organisational success and development.
Module Fees: \$130	
Module Credits: 10	

Strategic Management

Code: B7-STM-20	This module equips students with the skills to analyse, formulate, and implement business strategies in the business management landscape. It focuses on competitive analysis, decision-making, resource management, and sustainability. Students learn to develop strategic plans that enhance organisational performance and long-term success in a dynamic business environment.
Module Fees: \$260	
Module Credits: 20	

Research Project 1: Proposal Writing

Code: B7-RP1-20	This module introduces students to business and management research, focusing on proposal writing for their final-year project. Students will learn to design data collection tools, understand research strategies (qualitative and quantitative), ensure ethical practices, use SPSS for data analysis, and analyse and present data effectively. The module also covers writing structured, well-reasoned business research reports.
Prerequisite: B7-RMB-20	
Module Fees: \$130	
Module Credits: 10	

Entrepreneurship and Innovation

Code: B8-ENI-20	This module explores entrepreneurship and innovation, covering enterprise development, opportunity discovery, and business planning. It examines innovation principles, feasibility assessment, business modelling, and disruptive technologies. Students will learn to validate risks, market size, and pricing while developing entrepreneurial teams, fostering creativity, and building sustainable, innovative ventures.
Module Fees: \$260	
Module Credits: 20	

SEMESTER 8

Professional Practice in Business

Code: B7-PPB-20	This internship module bridges the gap between academic learning and real-world application. Students will gain practical experience, develop specialist knowledge, and improve decision-making, research, and communication skills. They will also learn to identify entrepreneurial opportunities and foster a commitment to lifelong learning, aligning with the Botho Graduate Profile.
Prerequisite: 240 Credits	
Module Fees: \$520	
Module Credits: 40	

Research Project 2: Dissertation

Code: B7-RP2-20	This module helps students identify, research, and address real-world industry problems by developing a holistic project. Students will define a specific problem, provide background context, conduct literature reviews, design research methodologies, collect and analyse data, draw conclusions, and write a final report. It enhances research skills and applies theoretical knowledge to business challenges.
Prerequisite: B7-RP1-20	
Module Fees: \$260	
Module Credits: 20
