

Bachelor of Education in Primary Education

(English Language & Mathematics)

Name of Programme	Bachelor of Education in Primary Education
Programme Overview	Ready to shape the future of education? Botho University's Bachelor of Education (Primary Education) programme is designed for aspiring and current educators, equipping you with essential skills and knowledge to excel. With specialised training in English language and Mathematics, this dynamic programme ensures you stay ahead, aligning with the latest policy initiatives on teacher retooling. Whether you're just starting or enhancing your career, our comprehensive curriculum prepares you for success. Unlock exciting opportunities in education, social services, training, and research, empowering you to make a real impact on the next generation. Join us and become a leader in primary education!
Admission Requirements	IGCSE/equivalent with 5 Passes including English and Mathematics. Applicants in possession of a Diploma or Higher Diploma in related fields may be given exemptions based on the credit point equivalency.
Technical Requirements	To ensure a smooth and effective learning experience, students enrolling in this programme must meet the following technical requirements: Device Requirements Computer/Laptop: Windows (10 or later) or Mac (macOS 10.15 or later); Processor: Intel i3 (or equivalent) or above; RAM: Minimum 4 GB (8 GB recommended for multitasking); Storage: Minimum 20 GB free space for coursework and downloads; Camera and Microphone: Built-in or external for live sessions and presentations OR Tablet/Smartphone: Suitable for accessing content on the go (limited functionality for assignments/exams) Internet Requirements Connection speed: Minimum 5 Mbps download and 2 Mbps upload (10 Mbps recommended for seamless video conferencing); Stable Wi-Fi or Ethernet connection recommended for live Zoom sessions Software and Platforms Virtual Live Sessions: Zoom (synchronous learning); Document Processing: Microsoft Office (Word, Excel, PowerPoint) or equivalent (Google Docs) Browser Requirements Supported browsers: Chrome (latest version), Safari (for Mac users); Cookies and JavaScript: Enabled for full Blackboard functionality Additional Tools (Optional but Recommended) Headset: For clear audio during virtual classes; External storage (USB/Cloud): For backups of important coursework; Antivirus software: To protect against malware or data loss
Typical Full-Time Study Period	4 years
Number of Modules	English specialisation 44 (39 core + 5 elective); Mathematics specialisation 42 (37 core + 5 elective)
Total Programmes Credits	520
Fees per Programme Credit	\$13
Total Tuition Fee	\$6760

Bachelor of Education in Primary Education

(English Language & Mathematics)

SEMESTER 1

Communication and Academic Literacy Skills

Code: D5-CAS-23	This module equips student teachers with the knowledge, skills, and competences to develop learners' foundational literacy - listening, speaking, reading, and writing - critical for academic success and future careers. It includes phonemic awareness, vocabulary, spelling, and comprehension, fostering effective communication and enabling learners to participate meaningfully in studies and professional contexts.
Module Fees: \$260	
Module Credits: 20	

Computer Skills Fundamentals

Code: D5-CSF-23	This module introduces basic computer concepts essential for primary school teaching, learning, and everyday life. Learners explore key terminology, use Microsoft Windows, and manage files and folders. It also covers fundamental features of MS Office applications – Word, Excel, Outlook, PowerPoint, and Access – equipping learners with practical digital skills.
Module Fees: \$260	
Module Credits: 20	

Introduction to Educational Psychology

Code: D5-IEP-23	This module explores key issues in education and their impact on teachers and learners. It emphasises understanding learners' developmental stages and supporting learning effectively. Using educational psychology, it examines human behaviour, growth, learning processes, and experiences, deepening understanding and enhancing the ability to address diverse educational needs.
Module Fees: \$130	
Module Credits: 10	

Historical, Philosophical and Sociological Foundations of Education

Code: D6-HPF-25	This module examines the historical, philosophical, and sociological foundations of education. It explores the history of education in various countries, the role of different stakeholders in shaping educational goals, and the origins of philosophy and sociology, highlighting contributions of key thinkers to educational thought and development.
Module Fees: \$130	
Module Credits: 10	

Introduction to Numeracy and Science for Teachers

Code: D6-INS-23	This module introduces and examines essential knowledge and skills in numeracy, science, and technology, providing a cross-curricular foundation vital for effectively teaching these subjects in primary schools.
Module Fees: \$130	
Module Credits: 10	

Bachelor of Education in Primary Education

(English Language & Mathematics)

SEMESTER 2

Writing in English

Code: D6-WIE-25	This module develops learners' English writing skills for academic tasks such as essays and assignments, and prepares them for professional communication, including emails, reports, and formal documents. Primary school teachers must be well equipped with strong English writing skills for effective communication and lesson facilitation.
Module Fees: \$130	
Module Credits: 10	

Introduction to Chemistry and Physics

Code: D6-ICP-23	This module introduces student teachers to fundamental concepts in chemistry and physics, covering the structure of matter, key quantitative and qualitative aspects of chemistry, and core principles of physics, including light, electricity, and sound.
Module Fees: \$130	
Module Credits: 10	

Indigenous People and their Environment

Code: D6-IPE-25	This module examines indigenous peoples, their origins, and their environments. It explores their social, cultural, economic, and political lives, highlighting the importance for student teachers to understand these communities' past and contemporary socio-economic activities and social structures.
Module Fees: \$130	
Module Credits: 10	

Introductory Biology and Earth Science for Primary Teachers

Code: D6-IBE-25	This module equips student teachers with the theoretical knowledge, skills, and abilities to understand and apply principles of biology and earth sciences, preparing them to integrate these concepts effectively into primary science teaching.
Module Fees: \$130	
Module Credits: 10	

SEMESTER 2 (ENGLISH SPECIALISATION)

The Pronunciation of English

Code: D6-TPE-23	This module focuses on understanding how words and sentences interact to form speech, alongside pronunciation and grammatical foundations essential for communication. Learners explore key linguistic rules and structures necessary for effective teaching and learning in primary schools.
Module Fees: \$130	
Module Credits: 10	

English Linguistics

Code: D6-ELG-25	The study of English linguistics provides student teachers with a systematic understanding of how language functions, evolves, and influences communication. This module develops analytical skills to examine English structure - phonetics, morphology, syntax, semantics, and pragmatics - enhancing written and spoken communication in primary schools.
Module Fees: \$130	
Module Credits: 10	

SEMESTER 2 (MATHEMATICS SPECIALISATION)

Introductory Mathematics

Code: D6-ITM-23	This module provides a solid foundation in core mathematical concepts, essential for applying mathematics across subjects. It develops basic mathematical skills and introduces their practical application in diverse problem-solving contexts.
Module Fees: \$260	
Module Credits: 20	

Bachelor of Education in Primary Education

(English Language & Mathematics)

SEMESTER 3

Introduction to Educational Research

Code: D6-IER-25	This module equips learners with an understanding of research principles and the ability to evaluate different research methods. It examines how chosen theories, methods, and approaches shape the research process, ensuring student teachers are well grounded in basic research skills essential for effective primary school teaching and learning.
Module Fees: \$130	
Module Credits: 10	

Foundations of Mathematics

Code: D7-FDM-25	This module explores the logical and philosophical foundations of mathematics, examining key concepts, principles, and methodologies in mathematical reasoning.
Module Fees: \$260	
Module Credits: 20	

Project-Based Learning and Teaching

Code: D7-PLT-25	This module develops active learning, collaboration, and critical thinking skills. Students work on projects addressing real-world problems, creating solutions and presenting findings to an academic audience. Through this experiential approach, student teachers acquire 21st-century skills essential for effectively teaching and engaging modern learners.
Module Fees: \$130	
Module Credits: 10	

Strategies for Teaching Numeracy and Science in Schools

Code: D7-STN-25	This module equips student teachers with the knowledge and skills to select appropriate approaches, methods, techniques, and strategies for effectively teaching numeracy and science in schools.
Module Fees: \$130	
Module Credits: 10	

SEMESTER 3 (ENGLISH SPECIALISATION)

Introduction to Reading Process

Code: D6-IRP-23	This module develops learners into independent readers, emphasising the use of context, dictionaries, and tables of contents. It fosters thoughtful responses to texts, enhancing creative and critical thinking while promoting clear, purposeful reading and comprehension.
Module Fees: \$130	
Module Credits: 10	

SEMESTER 3 (MATHEMATICS SPECIALISATION)

Introductory Set and Number Theory

Code: D6-ISN-25	This module helps student teachers understand fundamental branches of mathematics, including sets and their relationships, and the properties and relationships of numbers such as integers. It provides a foundation for modern mathematics and its core concepts.
Module Fees: \$130	
Module Credits: 10	

Bachelor of Education in Primary Education

(English Language & Mathematics)

SEMESTER 3 ELECTIVE GROUP (CHOOSE ONE)

Counselling over a Life Span

Code: D6-COL-23	This module equips student teachers with the knowledge and skills to provide counselling services to clients. It covers key aspects, including attachment, school adjustment, social skills, identity formation, peer relationships, emotional regulation, and risk behaviours, preparing teachers to support learners' personal and social development effectively.
Module Fees: \$130	
Module Credits: 10	

Foundations of Early Childhood Education

Code: D6-FEC-25	This module introduces student teachers to essential principles, knowledge, and practices for effective teaching and learning of young children from birth to age eight. It covers child development, learning theories, supportive environments, curriculum design, and pedagogy to enhance early childhood education.
Module Fees: \$130	
Module Credits: 10	

Foundations of Environmental Education

Code: D6-FEE-25	This module enables student teachers to explore environmental issues and create awareness to address related problems. It examines human interaction with the environment, covering topics such as climate change, pollution, sustainability, environmental health, and waste management to promote informed and responsible practices.
Module Fees: \$130	
Module Credits: 10	

SEMESTER 4

Practitioner Research

Code: D7-PRE-25	This module introduces student teachers to practice-based research aimed at enhancing teaching and learning. It equips them with the knowledge, skills, and competences necessary to improve their professional practice as primary school educators.
Module Fees: \$130	
Module Credits: 10	

Human Growth and Development

Code: D7-HGD-25	This module examines aspects of human growth and development, including physical, cognitive, emotional, social, and moral changes across the lifespan, and their educational implications. Stages covered include infancy, childhood, adolescence, and adulthood.
Module Fees: \$130	
Module Credits: 10	

Assessment in Primary Schools

Code: D7-APS-23	This module develops learners' theoretical knowledge and skills in understanding and applying assessment principles. It focuses on using these principles effectively to assess primary science learning, ensuring meaningful evaluation of student progress and achievement.
Module Fees: \$130	
Module Credits: 10	

Information and Communication Technology Application in Schools

Code: D7-ICT-25	This module equips student teachers with the skills and competences to apply information technologies in teaching 21st-century learners.
Module Fees: \$130	
Module Credits: 10	

Strategies for Teaching Literacy in Schools

Code: D7-STL-25	This module equips student teachers with strategies for teaching literacy across the curriculum using thematic and pedagogical approaches. Learners develop skills to integrate literacy into daily activities and design instruction with informative, narrative, and persuasive texts, supported by key theories of literacy acquisition and contextual understanding.
Module Fees: \$130	
Module Credits: 10	

Bachelor of Education in Primary Education

(English Language & Mathematics)

SEMESTER 4 (ENGLISH SPECIALISATION)

Poetry of Southern Africa

Code: D7-PSA-25	This module explores the role of poetry in fostering language, creativity, emotional intelligence, and critical thinking. Student teachers learn how poetry enhances teaching and learning, particularly at the primary school level, and master its benefits as an educational tool.
Module Fees: \$130	
Module Credits: 10	

SEMESTER 4 (MATHEMATICS SPECIALISATION)

Teaching Methods for Mathematics in Primary Schools

Code: D7-TMM-23	This module introduces effective teaching strategies and techniques for primary school mathematics, exploring appropriate pedagogies, purposes, scope, sequence, materials, and methodologies. It supports students in meeting essential requirements for primary teaching through the development of practical, evidence-based skills for effective mathematics instruction and learning.
Module Fees: \$130	
Module Credits: 10	

SEMESTER 4 ELECTIVE GROUP (CHOOSE ONE)

Listening, Composing and Performing

Code: D6-LCP-25	This module explores the core processes of music engagement – listening, composing, and performing. Student teachers examine how these activities are interconnected and the role of music education in enhancing learning at the primary school level.
Module Fees: \$130	
Module Credits: 10	

Organisation and Administration of Physical Education and Sports

Code: D6-OAP-25	This module equips student teachers with the knowledge, skills, and competences for effective organisation and management of physical education and sports. It covers leadership qualities and key functions – planning, organising, staffing, directing, coordinating, controlling, evaluating, and innovating – to deliver efficient, high-quality physical activity programmes.
Module Fees: \$130	
Module Credits: 10	

Practical Art, Craft and Design Skills for the Classroom Teacher

Code: D6-PAC-25	This module introduces primary education student teachers to the importance of arts, crafts, and design methods for effective teaching and learning. Topics include drawing, painting, sculpture, printmaking, product design, and clay modelling, with opportunities to apply theoretical knowledge through practical activities.
Module Fees: \$130	
Module Credits: 10	

Bachelor of Education in Primary Education

(English Language & Mathematics)

SEMESTER 5

Instructional Materials

Code: D7-IMP-23	This module equips learners with the knowledge and skills to design, develop, evaluate, and use instructional materials that enhance teaching and learning experiences.
Module Fees: \$130	
Module Credits: 10	

Education for Children with Attention Deficit Hyperactivity Disorder

Code: D7-ECD-25	This module equips student teachers with the knowledge, skills, and competences to effectively support and facilitate learning for children with Attention Deficit Hyperactivity Disorder (ADHD).
Module Fees: \$130	
Module Credits: 10	

Infusing Environmental Education in the Curriculum

Code: D7-IEE-23	This module enables learners to understand how their decisions and actions affect the environment. It builds skills to address complex environmental issues and explores practical ways to promote a healthy, sustainable future.
Module Fees: \$130	
Module Credits: 10	

Characteristics of Human Language

Code: D7-CHL-25	This module equips student teachers with the skills and competences to understand and express the characteristics of human language. It analyses topics such as arbitrariness, productivity, creativity, duality of patterning, cultural transmission, and interchangeability.
Module Fees: \$130	
Module Credits: 10	

Conducting Remedial Teaching in Schools

Code: D7-CRT-23	This module develops theoretical knowledge in selecting suitable teaching approaches, methods, techniques, and strategies for effectively planning and delivering remedial classes in primary schools.
Module Fees: \$130	
Module Credits: 10	

SEMESTER 5 (ENGLISH SPECIALISATION)

Theory and Practice of Second Language Teaching

Code: D7-TPS-25	This module introduces key theories of second language acquisition, enabling learners to apply effective classroom teaching strategies. It also examines challenges in second language learning and guides learners in designing interventions to support student progress.
Module Fees: \$130	
Module Credits: 10	

Bachelor of Education in Primary Education

(English Language & Mathematics)

SEMESTER 5 (MATHEMATICS SPECIALISATION)

Geometry for Primary School Teachers

Code: D7-GPT-23	This module explores the combinatorial properties of geometric objects - point sets, subspace arrangements, convex polytopes, and geometric graphs - introducing fundamental concepts, key structures, and selected results in the field.
Module Fees: \$130	
Module Credits: 10	

SEMESTER 5 ELECTIVE GROUP (CHOOSE ONE)

Multicultural Counselling

Code: D7-MCC-25	This module introduces student teachers to multicultural counselling, focusing on how culture influences mental health and well-being. Using a therapeutic approach, it covers cultural awareness, cultural sensitivity, gender, race, socio-economic background, cultural competence, and strategies for addressing systemic issues.
Module Fees: \$130	
Module Credits: 10	

Appropriate Art, Craft and Design Methods and Materials for School

Code: D7-ACD-25	This module introduces primary school student teachers to appropriate art, craft, and design methods and materials for effective teaching and learning. It covers drawing, painting, collage, simple sculpture, and textile work, fostering creativity in the classroom.
Module Fees: \$130	
Module Credits: 10	

Motor Learning and Human Performance

Code: D7-MLH-25	This module equips student teachers with the knowledge and skills to master motor skills essential for physical activity, development, and well-being. Topics include motor skill acquisition, practice methods, feedback, cognitive factors, and individual differences.
Module Fees: \$130	
Module Credits: 10	

SEMESTER 6

Organising and Implementing Remedial Programmes in Schools

Code: D7-OIR-25	This module equips student teachers with the knowledge and skills to organise and implement remedial programmes in schools. It covers planning, approaches, and strategies for the successful delivery of such programmes to support learners' academic progress.
Module Fees: \$130	
Module Credits: 10	

Managing Education for Sustainable Development

Code: D7-MES-23	This module fosters appreciation and respect for nature, raising awareness of environmental issues affecting communities and the world. It promotes understanding of the relationship between individuals, society, and the environment, equipping learners with knowledge and skills for sustainable and harmonious human-environment interaction.
Module Fees: \$130	
Module Credits: 10	

Literacy across the Curriculum

Code: D7-LAC-25	This module highlights the importance of integrating literacy across all curriculum areas. Student teachers learn to develop reading, writing, speaking, and listening skills in subjects such as mathematics, science, and social studies, not solely within English language.
Module Fees: \$130	
Module Credits: 10	

Bachelor of Education in Primary Education

(English Language & Mathematics)

SEMESTER 6 (ENGLISH SPECIALISATION)

The Structure of the Sentence

Code: D7-TSS-23	This module teaches sentence structure, focusing on declarative, interrogative, imperative, and exclamative forms. Learners identify, construct, and explain each type, understanding their purpose. Mastery of sentence structure is essential for academic success and effective communication, particularly in primary school teaching and learning.
Module Fees: \$130	
Module Credits: 10	

Teaching Reading in the Primary School

Code: D7-TRP-25	This module equips student teachers with the knowledge and skills for effective teaching of the reading process in primary schools. It covers strategies to make reading enjoyable, relevant, and suited to children's interests and comprehension within a supportive, well-structured learning environment.
Module Fees: \$130	
Module Credits: 10	

SEMESTER 6 (MATHEMATICS SPECIALISATION)

Teaching Number System in the Primary Schools

Code: D7-TNS-25	This module equips student teachers with the knowledge, skills, and competences for effective teaching of the number system in primary schools. It emphasises hands-on, engaging learning, guiding learners from the known to the unknown through real-world examples to enhance understanding and application.
Module Fees: \$130	
Module Credits: 10	

Teaching Algebra in Schools

Code: D7-TAS-23	This module prepares primary school teachers to plan and deliver algebra lessons suited to learners' developmental levels. It builds the knowledge and skills needed to teach algebra effectively and confidently in primary schools.
Module Fees: \$130	
Module Credits: 10	

Bachelor of Education in Primary Education

(English Language & Mathematics)

SEMESTER 6 ELECTIVE GROUP (CHOOSE ONE)

Curriculum Development in Early Childhood Education

Code: D7-CDE-25	This module prepares student teachers for effective curriculum design, planning, and the development of instructional design models in early childhood education.
Module Fees: \$130	Module Credits: 10
Module Credits: 10	

Substance Abuse Counselling

Code: D7-SAC-25	This module equips student teachers with the knowledge and skills to effectively address cases of alcoholism, addiction, and depression among students.
Module Fees: \$130	Module Credits: 10
Module Credits: 10	

Environmental Conservation Strategies I

Code: D7-ECS-25	This module introduces student teachers to environmental conservation and strategies for protecting the environment. Topics include waste management, energy conservation, tree planting, and promoting sustainable transportation to support ecological balance and long-term sustainability.
Module Fees: \$130	Module Credits: 10
Module Credits: 10	

SEMESTER 7 (ENGLISH SPECIALISATION)

Modern English Grammar

Code: D7-MEG-25	This module examines English grammar theories and applications from the Early Modern English period to the present. It focuses on analysing spoken and written texts using traditional, structural, and modern linguistic theories, enabling learners to describe, analyse, and construct language at word, phrase, clause, and discourse levels.
Module Fees: \$130	Module Credits: 10
Module Credits: 10	

Usage in English

Code: D7-UIE-25	This module teaches student teachers the principles and practice of English language usage, focusing on how words and phrases are used. It emphasises appropriate and effective usage within sentences, a skill essential for teaching at the primary school level.
Module Fees: \$130	Module Credits: 10
Module Credits: 10	

Literature in Primary Schools

Code: D7-LIP-23	This module introduces student teachers to various forms of prose, both fiction and non-fiction, including essays, autobiographies, short stories, and novels, and provides a brief overview of other literary genres such as poetry and drama.
Module Fees: \$130	Module Credits: 10
Module Credits: 10	

Breakthrough to Literacy

Code: D7-BTL-23	This module equips future teachers with strategies for teaching literacy across the curriculum. Learners explore thematic and pedagogical approaches, integrate literacy into daily lessons, and design instruction using informative, narrative, and persuasive texts, supported by theories of literacy acquisition and relevant contextual frameworks.
Module Fees: \$130	Module Credits: 10
Module Credits: 10	

Strategies in Teaching Literacy in Schools

Code: D7-SIN-25	This module focuses on strategies for teaching literacy in primary schools, emphasising phonics, fluency, vocabulary, and comprehension. Student teachers gain the knowledge and skills to incorporate engaging activities, making literacy teaching and learning enjoyable and effective in primary classrooms.
Module Fees: \$130	Module Credits: 10
Module Credits: 10	

Bachelor of Education in Primary Education

(English Language & Mathematics)

SEMESTER 7 (MATHEMATICS SPECIALISATION)

Mathematical Applications for Teachers

Code: D7-MAT-25	This module prepares students for life, work, and further study in a world of continuous learning. It strengthens mathematical knowledge, skills, and concepts through practical, analytical, and problem-solving tasks, encouraging integration with other modules.
Module Fees: \$130	
Module Credits: 10	

Teaching School Mathematics

Code: D7-TSM-25	This module prepares student teachers for effective mathematics teaching at the primary school level. It emphasises creating a positive learning environment through concrete materials and real-world applications, enabling teachers to build learners' strong foundation in number sense, place value, and problem-solving skills.
Module Fees: \$130	
Module Credits: 10	

The Use of Technology in Teaching Primary Mathematics

Code: D7-UTM-25	This module helps student teachers enhance the teaching and learning of primary school mathematics through technology, making concepts more engaging, visual, and interactive. It emphasises the need for 21st-century teachers to integrate technology for improved student engagement and teaching effectiveness.
Module Fees: \$130	
Module Credits: 10	

Calculus

Code: D8-CLS-25	This module introduces learners to differential calculus and its applications, with no prior knowledge required. Topics include functions and graphs, powers and roots, limits, rates of change, and derivatives. Learners apply differentiation rules, explore exponential and logarithmic functions, and use derivatives for graph sketching and optimisation.
Module Fees: \$260	
Module Credits: 20	

Bachelor of Education in Primary Education

(English Language & Mathematics)

SEMESTER 7 ELECTIVE GROUP (CHOOSE ONE)

Consultations in Schools and Community Settings

Code: D7-CSC-25	This module highlights the importance of school–community relations. It examines how counsellors or psychologists work with teachers and parents to address learner issues. Topics include consultation, consultative services, collaboration, and building partnerships between schools and communities to support student development and well-being.
Module Fees: \$130	
Module Credits: 10	

Theory of Moral Education

Code: D7-TME-25	This module examines the role of moral education in shaping learners' character at the primary school level. Topics include morality in educational settings, moral formation, moral inquiries, moral education theories, and the overall importance of moral education.
Module Fees: \$130	
Module Credits: 10	

Scientific Basis of Coaching and Officiating

Code: D7-SBC-25	This physical education module introduces student teachers to the theory and practice of physical activities and athletic performance. Topics include coaching, kinesiology, physiology, motor learning, sports psychology, cognitive science, psychology of officiating, ethics and integrity, communication, integration, and mental skills training.
Module Fees: \$130	
Module Credits: 10	

SEMESTER 8

Teaching Practice

Code: D7-TPC-23	This module provides student teachers with practical classroom experience, bridging theory and practice. It prepares them for the realities of teaching by building skills, confidence, and adaptability in real educational settings.
Prerequisite: 240 credits	
Module Fees: \$780	
Module Credits: 60
