

Diploma in Occupational Health and Safety

Name of Programme	Diploma in Occupational Health Safety
Programme Overview	Fascinated by creating safer workplaces? The Diploma in Occupational Health and Safety is designed for those passionate about protecting people and organisations. The programme combines occupational health, safety management, risk assessment, and environmental sustainability, equipping learners with practical skills to identify, evaluate, and control workplace hazards while ensuring regulatory compliance. Graduates are prepared for impactful careers across manufacturing, construction, healthcare, and beyond. With its balance of theory and hands-on learning, the diploma develops professionals ready to prevent injuries, illnesses, and accidents, while fostering a strong culture of safety and employee well-being.
Admission Requirements	IGCSE/equivalent.
Technical Requirements	To ensure a smooth and effective learning experience, students enrolling in this programme must meet the following technical requirements: Device Requirements Computer/Laptop: Windows (10 or later) or Mac (macOS 10.15 or later); Processor: Intel i3 (or equivalent) or above; RAM: Minimum 4 GB (8 GB recommended for multitasking); Storage: Minimum 20 GB free space for coursework and downloads; Camera and Microphone: Built-in or external for live sessions and presentations OR Tablet/Smartphone: Suitable for accessing content on the go (limited functionality for assignments/exams) Internet Requirements Connection speed: Minimum 5 Mbps download and 2 Mbps upload (10 Mbps recommended for seamless video conferencing); Stable Wi-Fi or Ethernet connection recommended for live Zoom sessions Software and Platforms Virtual Live Sessions: Zoom (synchronous learning); Document Processing: Microsoft Office (Word, Excel, PowerPoint) or equivalent (Google Docs) Browser Requirements Supported browsers: Chrome (latest version), Safari (for Mac users); Cookies and JavaScript: Enabled for full Blackboard functionality Additional Tools (Optional but Recommended) Headset: For clear audio during virtual classes; External storage (USB/Cloud): For backups of important coursework; Antivirus software: To protect against malware or data loss
Typical Full-Time Study Period	2 Years
Number of Modules	17 (16 core + 1 elective)
Total Programmes Credits	248
Fees per Programme Credit	\$13
Total Tuition Fee	\$3,224

SEMESTER 1

Communication and Study Skills

Code: D5-CSS-21	The purpose of this module is to enhance students' academic and professional communication abilities, including writing, presentation, and critical thinking. It also focuses on effective study techniques, time management, and research skills to improve learning efficiency and success in academic and workplace settings.
Module Fees: \$130	
Module Credits: 10	

Information Communication Technology

Code: C5-ICT-21	The purpose of this module is to provide students with a solid understanding of the fundamentals of computers, including essential hardware and software concepts. The module also covers practical skills in using word processing software and presentation tools, preparing students for effective digital communication.
Module Fees: \$130	
Module Credits: 10	

Introduction to Occupational Health and Safety Management

Code: D6-OHS-21	The purpose of this module is to provide students with the knowledge and skills to identify, assess, and mitigate workplace hazards. It aims to promote a culture of safety, ensure regulatory compliance, and protect the well-being of employees in various occupational settings.
Module Fees: \$156	
Module Credits: 12	

Introduction to Occupational Hygiene and Toxicology

Code: D6-OHT-21	The purpose of this module is to study the effects of harmful substances on living organisms and the environment. It aims to provide students with the knowledge and tools to assess risks, prevent exposure, and develop strategies for managing and mitigating the impact of toxins in occupation.
Module Fees: \$156	
Module Credits: 12	

Occupational Health and Safety Law I

Code: D6-OHL-21	The purpose of this module is to familiarise students with the legal frameworks and regulations governing workplace safety and health standards. It aims to promote compliance, protect employee rights, and ensure safe working environments through an understanding of legal responsibilities and obligations.
Module Fees: \$156	
Module Credits: 12	

SEMESTER 2

Safety Management and the Built Environment

Code: D6-SMB-21	The purpose of this module is to explore the principles and practices of ensuring safety in the design, construction, and maintenance of built structures. It aims to promote risk assessment, hazard control, and compliance with safety standards to create secure and sustainable environments for occupants and users.
Module Fees: \$156	
Module Credits: 12	

Environmental Management

Code: D6-ENM-21	The purpose of this module is to introduce principles of environmental sustainability, resource management, and policies to mitigate environmental degradation.
Module Fees: \$156	
Module Credits: 12	

Risk Management

Code: D6-RMN-21	The purpose of this module is to equip students with the skills and strategies to identify, assess, and mitigate risks in various organisational contexts. It aims to promote proactive decision-making and resilience by minimising potential threats and maximising opportunities for success.
Module Fees: \$156	
Module Credits: 12	

Occupational Health and Safety Law II

Code: D6-OS2-21	The purpose of this module is to deepen students' understanding of advanced legal principles and case studies related to workplace safety and health regulations. It aims to enhance skills in interpreting and applying complex legal requirements to ensure organisational compliance and foster a culture of safety.
Prerequisite: D6-OHL-21	
Module Fees: \$156	
Module Credit :12	

Quality Management

Code: D6-QUM-21	The purpose of this module is to equip students with the knowledge and tools necessary to design, implement, and maintain effective quality assurance systems within organisations. It aims to promote continuous improvement, customer satisfaction, and operational excellence through the application of quality standards and methodologies.
Module Fees: \$156	
Module Credits: 12	

SEMESTER 3

Labour Law

Code: D7-LBL-21	The purpose of this module is to provide an understanding of legal frameworks governing employment relationships, including workers' rights, employer obligations, and dispute resolution. It covers labour standards, workplace safety regulations, and collective bargaining to ensure fair and lawful practices in the workplace.
Module Fees: \$156	
Module Credits: 12	

Biostatistics

Code: D7-BST-21	The purpose of this module is to provide students with the foundational knowledge and skills in statistical methods used in the field. It covers data analysis, probability, statistical inference, and the application of statistical tools to interpret biological and medical research effectively.
Module Fees: \$156	
Module Credits: 12	

Ergonomics

Code: D7-ERG-21	The purpose of this module Ergonomics is to study the interaction between humans and their working environments to optimise safety, comfort, and productivity. It aims to apply principles of design and engineering to reduce physical strain, prevent injuries, and enhance overall efficiency in various tasks and workplaces.
Module Fees: \$156	
Module Credits: 12	

Emergency Preparedness and Disaster Management

Code: D7-EPM-21	The purpose of this module is to equip students with skills to plan, respond to, and manage emergencies and disasters. It focuses on risk assessment, crisis communication, resource coordination, and recovery strategies to minimise impacts and ensure safety in various settings.
Module Fees: \$156	
Module Credits: 12	

Occupational Diseases

Code: D7-OPD-21	The purpose of this module is to study diseases caused by workplace exposures, their prevention, and management. It covers identification of occupational hazards, diagnostic methods, legal frameworks, and strategies to mitigate risks, ensuring healthier and safer work environments.
Module Fees: \$156	
Module Credits: 12	

SEMESTER 3 ELECTIVE GROUP (CHOOSE ONE)

Employee Relations

Code: D7-ERT-21	The purpose of this module is to explore strategies for managing workplace relationships, resolving conflicts, and fostering a positive work environment. It emphasises effective communication, employee engagement, and compliance with labour laws to enhance organisational productivity and employee satisfaction.
Module Fees: \$156	
Module Credits: 12	

Health and Safety in Transport

Code: D7-HST-21	The purpose of this module is to explore safety protocols, risk management, and regulatory compliance in transportation systems. It focuses on identifying hazards, implementing preventive measures, and ensuring the health and safety of passengers, workers, and the public in various transport environments, including road, rail, air, and maritime sectors.
Module Fees: \$156	
Module Credits: 12	

Building Maintenance

Code: D7-BDM-21	The purpose of this module is to provide knowledge and skills for maintaining safe, functional, and efficient building operations. It covers preventive maintenance strategies, repair techniques, and safety protocols to ensure compliance with health, safety, and environmental standards, while extending the lifespan of building infrastructure.
Module Fees: \$156	
Module Credits: 12	

SEMESTER 4

Industrial Attachment

Code: D6-INA-21	The purpose of this module is to provide students with practical, hands-on experience in a real-world work environment. It aims to bridge the gap between academic learning and professional practice, enhancing skills, knowledge, and employability in their chosen field.
Prerequisite: 120 credits	
Module Fees: \$780	
Module Credits: 60
