

Name of Programme	Master of Business Administration (MBA)
Programme Overview	Aiming to become a top executive in the global business arena? The Master of Business Administration (MBA) is designed for ambitious professionals seeking to advance their careers. It equips learners with the ability to address complex challenges through critical thinking, entrepreneurship, financial resilience, and innovative problem-solving. The programme offers flexibility to balance work, life, and study while developing expertise in international business, leadership, accounting, risk management, technology, and marketing. With a strong foundation in business and executive acumen, the MBA prepares graduates to thrive in competitive environments and achieve long-term professional success.
Admission Requirements	Bachelors or Honours Bachelors Degree from a recognised institution
Technical Requirements	To ensure a smooth and effective learning experience, students enrolling in this programme must meet the following technical requirements: Device Requirements Computer/Laptop: Windows (10 or later) or Mac (macOS 10.15 or later); Processor: Intel i3 (or equivalent) or above; RAM: Minimum 4 GB (8 GB recommended for multitasking); Storage: Minimum 20 GB free space for coursework and downloads; Camera and Microphone: Built-in or external for live sessions and presentations OR Tablet/Smartphone: Suitable for accessing content on the go (limited functionality for assignments/exams) Internet Requirements Connection speed: Minimum 5 Mbps download and 2 Mbps upload (10 Mbps recommended for seamless video conferencing); Stable Wi-Fi or Ethernet connection recommended for live Zoom sessions Software and Platforms Virtual Live Sessions: Zoom (synchronous learning); Document Processing: Microsoft Office (Word, Excel, PowerPoint) or equivalent (Google Docs) Browser Requirements Supported browsers: Chrome (latest version), Safari (for Mac users); Cookies and JavaScript: Enabled for full Blackboard functionality Additional Tools (Optional but Recommended) Headset: For clear audio during virtual classes; External storage (USB/Cloud): For backups of important coursework; Antivirus software: To protect against malware or data loss
Typical Full-Time Study Period	2 years
Number of Modules	14 (12 core + 2 elective)
Total Programmes Credits	250
Fees per Programme Credit	\$19.50
Total Tuition Fee	\$4875

SEMESTER 1

Collaborative Business Strategies

Code: B9-CBS-17	This module focuses on business collaboration strategies, including franchising, outsourcing, licensing, and joint ventures. Learners examine benefits and challenges, exploring how organisations can use these approaches to expand, share risks, and achieve sustainable growth and long-term success in global markets.
Module Fees: \$195	
Module Credits: 10	

Management Information Systems

Code: B9-MIS-17	This module examines the role of information systems in organisations, covering leadership strategies, database management, and networks. It includes ERP, CRM, e-business, mobile technologies, knowledge management, security, auditing, ethics, privacy, and practical skills in operating systems and software applications.
Module Fees: \$390	
Module Credits: 20	

Management Accounting

Code: A9-MAC-17	This module explores how management accounting supports operational efficiency and decision-making. It covers control systems, cost management, and cost behaviour analysis, using traditional and activity-based costing. Learners examine organisational design, responsibility centres, performance assessment, and budgeting to align objectives, motivate performance, and guide investment decisions.
Module Fees: \$390	
Module Credits: 20	

Project Management

Code: B9-PMT-17	This module covers industry-standard project management strategies, including developing comprehensive plans, managing scope, cost, and schedule, and using Earned Value to track progress. Learners build skills in enhancing team performance, communication, and sustainability while ensuring clear objectives and accountability for successful project outcomes.
Module Fees: \$195	
Module Credits: 10	

SEMESTER 2

Managerial Economics

Code: B9-MEC-17	This module develops skills for strategic business decision-making, including cost analysis, pricing optimisation, market forecasting, and value maximisation. Learners apply game theory, manage risks, align incentives, and gain expertise in investment decisions, bargaining, and supply chain management to navigate complex economic environments effectively.
Module Fees: \$195	
Module Credits: 10	

Marketing Management

Code: B9-MGT-17	This module develops understanding of marketing processes, environmental analysis, and Marketing Information Systems. Learners study buyer behaviour, product development, pricing, and distribution, applying market-driven communication strategies to promote effectively, build lasting customer relationships, and address contemporary marketing challenges for sustained growth and success.
Module Fees: \$390	
Module Credits: 20	

Financial Management

Code: A9-FMT-17	This module explains the distinction between financial management and accounting, covering key financial ratios and investment performance. Learners study Time Value of Money (TVM), capital structure, risk–return strategies, capital budgeting, stock types, bonds, and forecasting techniques to support informed, profitable decision-making.
Module Fees: \$390	
Module Credits: 20	

Decision Analysis

Code: B9-DAS-17	This module develops skills to identify problems, assess business situations, and generate creative alternatives using effective methodologies. Learners model opportunities, prioritise key factors, assess resource needs, and evaluate options strategically to select the best course of action for driving business success.
Module Fees: \$195	
Module Credits: 10	

SEMESTER 3

Strategic Management

Code: B9-STM-17	This module builds expertise in strategic management through understanding mission, vision, and values. Learners analyse industries, assess competition, and evaluate company strengths. They develop, implement, and assess strategies, using tools to create competitive advantage and achieve long-term organisational goals.
Module Fees: \$390	
Module Credits: 20	

Business Research Methods

Code: B9-BRM-17	This module develops skills in crafting research proposals, conducting literature reviews, and applying suitable methodologies. Learners study research paradigms, sampling, and data collection, analyse quantitative and qualitative data, ensure validity and reliability, present findings, publish conceptual papers, and uphold ethical research standards.
Module Fees: \$390	
Module Credits: 20	

Climate Change and Sustainability

Code: B9-CSS-24	This module explores climate economics, policies, and governance for sustainable development. Learners study responsible leadership, environmental management, and climate risk planning, developing strategies for climate justice, resilience, and effective communication in promoting sustainable and adaptable environments.
Module Fees: \$195	
Module Credits: 10	

SEMESTER 3 ELECTIVE GROUP (CHOOSE TWO)

International Investment Analysis

Code: A9-IIA-17	This module examines financial reporting standards, including income statements, cash flow statements, and statements of financial position. Learners explore investment analysis techniques, valuation of inventories, assets, and liabilities, financial statement quality, income taxes, intercorporate investments, and integrating financial analysis for multinational operations to support strategic decision-making.
Module Fees: \$195	
Module Credits: 10	

Risk Management in Financial Institutions

Code: A9-RMF-17	This module explores treasury policies, debt capacity, and bank finance. Learners study bond valuation, credit ratings, asset securitisation, and derivatives for risk mitigation, alongside cash and liquidity management, treasury systems, tax, and accounting to enhance financial stability and support strategic decision-making.
Module Fees: \$195	
Module Credits: 10	

Financial Markets and Treasury Management

Code: A9-FTM-17	This module covers risk navigation, liquidity optimisation, and financial decision-making. Learners study risk management, treasury policies, debt financing, bond valuation, and asset securitisation, exploring derivatives for risk mitigation, cash flow strategies, and treasury operations, including tax and accounting.
Module Fees: \$195	
Module Credits: 10	

Strategic Marketing

Code: B9-SMT-17	This module develops skills in creating effective strategies to guide impactful marketing tactics. Learners use data-driven decision-making and market insights to manage business growth, applying strategic marketing tools to enhance brand positioning, customer engagement, and long-term business success.
Module Fees: \$195	
Module Credits: 10	

New Product Development and Management

Code: B9-NPD-17	This module covers opportunity identification, strategic planning, and the product development process. Learners explore creativity, concept development, and customer problem-solving, gaining insight into strategic elements, idea generation, and execution to launch innovative products and drive business growth.
Module Fees: \$195	
Module Credits: 10	

Operations Strategy

Code: B9-OPS-17	This module focuses on resource development, process optimisation, and strategic impact. Learners study performance management, capacity, purchasing, and supply strategies, alongside continuous improvement and innovation, to formulate, implement, monitor, and control operations strategies for sustainable business success and operational excellence.
Module Fees: \$195	
Module Credits: 10	

Technopreneurship

Code: B9-TPN-17	This module introduces innovative and entrepreneurial fundamentals to support job creation, creativity, and economic growth. Learners build skills to develop successful technology ventures, create effective business plans, and apply strategies for launching technology-based initiatives.
Module Fees: \$195	
Module Credits: 10	

Business Statistics

Code: B9-BST-17	This module develops skills for data-driven decision-making, covering descriptive statistics, probability distributions, sampling, hypothesis testing, ANOVA, t-tests, and Chi-Square analysis. Learners also study correlation, regression, decision analysis, and non-parametric statistics to generate insights and support business success.
Module Fees: \$195	
Module Credits: 10	

SEMESTER 4

Dissertation

Code: B9-DIS-17	This module develops skills to produce impactful research, including crafting an overview, writing a compelling introduction, conducting an in-depth literature review, designing a robust methodology, analysing findings, and presenting clear conclusions and recommendations.
Prerequisite: B9-BRM-17	
Module Fees: \$1170	
Module Credits: 60
