

Master of Education in Curriculum Design and Instruction

Name of Programme	Master of Education in Curriculum Design and Instruction		
Programme Overview	Ready to lead in education and curriculum development? Our Master of Education in Curriculum Design and Instruction is designed for those who want to enhance their knowledge and skills in the field of education and curriculum development.		
Admission Requirements	Bachelors or Honours Bachelors Degree from a recognised institution.		
Technical Requirements	To ensure a smooth and effective learning experience, students enrolling in this programme must have a minimum of 2.5 GPA in their undergraduate studies.		
Typical Full-Time Study Period	2 years		
Number of Modules	15 (12 core + 3 electives)		
Total Programmes Credits	240		
Fees per Programme Credit	\$19.50		
Total Tuition Fee	\$4680		
SEMESTER 1			
Learning, Teaching and Assessment			
Code: D8-LTA-25	This module enables learners to develop the knowledge, skills, and competencies required to enhance teaching and assessment practices. It emphasises the application of effective approaches to curriculum development and instructional processes, supporting improved learning outcomes and professional practice in educational contexts.		
Module Fees: \$195			
Module Credits: 10			
Theories of Curriculum Development			
Code: D8-TCD-25	This module enables learners to familiarise themselves with key theories of curriculum development and instruction. It emphasises the application of these theories to learning and teaching processes, fostering an understanding of how theoretical perspectives inform curriculum design, implementation, and evaluation in educational practice.		
Module Fees: \$195			
Module Credits: 10			
Computer Applications in Education			
Code: D9-CAE-25	This module introduces fundamental concepts of information technology and their application in education. Learners will apply digital tools to support teaching and learning, collaborate effectively with stakeholders, and enhance research practices, thereby strengthening technological integration in educational contexts.		
Module Fees: \$390			
Module Credits: 20			
Foundations of Curriculum Design and Development			
Code: D8-FCD-25	This module introduces learners to the theoretical and practical foundations of curriculum design and development. As a core element of education, it emphasises the principles that guide curriculum construction and instruction, ensuring learners acquire the knowledge and skills necessary to engage effectively in curriculum planning and implementation.		
Module Fees: \$195			
Module Credits: 10			
Instructional Strategies Using Internet			
Code: D9-ISI-22	This module introduces instructional strategies for online learning, highlighting the flexibility it provides for learners to study at their own pace and in varied settings. It contrasts online learning with traditional face-to-face approaches, emphasising the opportunities for adaptable teaching and learning beyond rigid schedules.		
Module Fees: \$195			
Module Credits: 10			

SEMESTER 2	
Curriculum Design and Development	
Code: D9-CDD-22	This module provides a critical understanding of the drivers, processes, and models of curriculum design and development. Learners will develop the competencies to critique, evaluate, design, and implement quality curricula, enabling them to apply curriculum development principles effectively in educational contexts.
Prerequisite: D9-FCD-25	
Module Fees: \$390	
Module Credits: 20	
Research Methods	
Code: D9-REM-22	This module develops learners' ability to connect theory and practice in curriculum development and instruction through research activities. It also equips them to evaluate policy changes affecting education, fostering the skills required to design, conduct, and analyse research that informs curriculum practice and educational decision-making.
Module Fees: \$390	
Module Credits: 20	
Assessment and Moderation in Outcomes-Based Education	
Code: D8-ABE-22	This module develops a critical understanding of assessment and moderation within Outcomes-Based Education (OBE). Learners will apply OBE principles to teaching, learning, and evaluation, gaining the knowledge and competencies required to implement effective assessment strategies and ensure quality assurance in contemporary educational practice.
Module Fees: \$195	
Module Credits: 10	
SEMESTER 2 ELECTIVE GROUP (CHOOSE ONE)	
Learning Theories	
Code: D9-LTH-22	This module introduces learning theories as frameworks that underpin teaching and learning. It enables learners to apply educational psychology principles to identify learning needs and adopt appropriate instructional practices. By engaging with major theoretical perspectives, learners develop informed approaches to enhance teaching effectiveness and student outcomes.
Module Fees: \$195	
Module Credits: 10	
Comparative Education	
Code: D9-CED-22	This module equips learners with an understanding of educational concepts, systems in different countries, and the implementation of international standards. It emphasises comparative analysis, problem-solving, and the practical application of education to address global challenges, while highlighting its role in improving economic and social development.
Module Fees: \$195	
Module Credits: 10	
SEMESTER 3	
Designing and Maintaining E-Learning	
Code: D9-DME-25	This module enables learners to apply technology effectively in designing, developing, planning, and evaluating e-learning activities. It introduces the concepts of open, distance, and mobile learning, equipping learners with the skills to integrate educational technology into teaching practice and enhance the delivery of flexible, technology-supported learning.
Module Fees: \$390	
Module Credits: 20	
Curriculum Evaluation	
Code: D9-CEV-22	This module equips learners with the knowledge, skills, and competencies to evaluate curricula effectively. It focuses on assessing whether curriculum objectives are being achieved, fostering the ability to apply evaluation frameworks and methods that support continuous improvement in curriculum design, implementation, and educational outcomes.
Module Fees: \$390	
Module Credits: 20	
Dissertation 1	
Code: D9-DI1-25	This module equips learners with the knowledge, skills, and competencies required to design and present a research proposal in education. It develops the ability to frame research questions, apply appropriate methodologies, and produce proposals that demonstrate academic rigour and potential impact on educational practice.
Prerequisite: D9-REM-22	
Module Fees: \$390	
Module Credits: 20	

SEMESTER 4	
Dissertation 2	
Code: D9-DI2-25	This module builds on Dissertation 1 by deepening learners' understanding of educational research through both theoretical and practical engagement. Learners are required to analyse research findings and present a dissertation that demonstrates academic rigour while contributing to the improvement of teaching, research, and wider practices in education.
Prerequisite: D9-DI1-25	
Module Fees: \$780	
Module Credits: 40	
SEMESTER 4 ELECTIVE GROUP (CHOOSE TWO)	
Contemporary Issues in Higher Education	
Code: D9-CHD-25	This module enables learners to examine contemporary issues in higher education and strategies for addressing emerging challenges. It equips them with relevant professional knowledge while fostering the capacity to critically analyse and reflect on challenges and opportunities at both institutional and individual levels, promoting informed and responsive practice.
Module Fees: \$195	
Module Credits: 10	
Quality Frameworks in Higher Education	
Code: D9-QHE-25	This module provides a critical understanding of international quality assurance methodologies and their application in higher education. Learners will examine quality frameworks with particular reference to Botswana, developing the ability to contextualise local practices within broader international standards of quality assurance.
Module Fees: \$195	
Module Credits: 10	
Curriculum Analysis	
Code: D9-CUA-25	This module equips learners with the knowledge, skills, and competencies required for effective curriculum analysis. It develops the ability to deconstruct curricula into their component parts, fostering a critical understanding of how each element contributes to overall design, implementation, and evaluation within educational contexts.
Module Fees: \$195	
Module Credits: 10
