

Bachelor of Commerce in Accounting

Name of Programme	Bachelor of Commerce in Accounting
Programme Overview	Your future in accounting starts here. The Bachelor of Commerce in Accounting offers a practical, industry-focused pathway to a rewarding career in accounting and finance. You will build expertise in financial reporting, auditing, taxation, and management accounting. What makes this degree distinctive is its strong balance of theory and practice, including a compulsory semester-long internship that provides invaluable real-world experience. Graduates are prepared for a wide range of careers in public and private accounting, financial analysis, banking, and government. The programme also lays a solid foundation for professional certifications such as ACCA, CPA, and CIMA, opening doors to advanced career opportunities and ensuring you are ready to excel in today's financial world.
Admission Requirements	IGCSE/equivalent with 5 Passes including English and Mathematics. Applicants in possession of a Diploma or Higher Diploma in related fields may be given exemptions based on the credit point equivalency.
Technical Requirements	To ensure a smooth and effective learning experience, students enrolling in this programme must meet the following technical requirements: Device Requirements Computer/Laptop: Windows (10 or later) or Mac (macOS 10.15 or later); Processor: Intel i3 (or equivalent) or above; RAM: Minimum 4 GB (8 GB recommended for multitasking); Storage: Minimum 20 GB free space for coursework and downloads; Camera and Microphone: Built-in or external for live sessions and presentations OR Tablet/Smartphone: Suitable for accessing content on the go (limited functionality for assignments/examinations) Internet Requirements Connection speed: Minimum 5 Mbps download and 2 Mbps upload (10 Mbps recommended for seamless video conferencing); Stable Wi-Fi or Ethernet connection recommended for live Zoom sessions Software and Platforms Virtual Live Sessions: Zoom (synchronous learning); Document Processing: Microsoft Office (Word, Excel, PowerPoint) or equivalent (Google Docs) Browser Requirements Supported browsers: Chrome (latest version), Safari (for Mac users); Cookies and JavaScript: Enabled for full Blackboard functionality Additional Tools (Optional but Recommended) Headset: For clear audio during virtual classes; External storage (USB/Cloud): For backups of important coursework; Anti-virus software: To protect against malware or data loss
Typical Full-Time Study Period	4 years
Number of Modules	38 (37 Core and 1 Elective)
Total Programmes Credits	480
Fees per Programme Credit	\$13
Total Tuition Fee	\$6240

SEMESTER 1

Introduction to MS Office

Code: C5-IMO-20	This module equips students with essential digital skills for academic, professional, and personal productivity. It provides practical experience with Microsoft Office applications, fostering proficiency in word processing, spreadsheets, presentations, database management, and email communication to build a strong foundation for effective digital engagement.
Module Fees: \$130	
Module Credits: 10	

Academic Writing for Business

Code: D5-AWB-20	This module develops essential academic writing skills, emphasising paragraph structure, thesis statements, and coherent argumentation. It addresses plagiarism, its implications, and strategies for avoidance. Students also gain competence in referencing, citation techniques, resource evaluation, and the use of tools such as Mendeley to uphold academic integrity.
Module Fees: \$130	
Module Credits: 10	

Business Mathematics and Statistics 1

Code: B5-BS1-17	This module introduces fundamental mathematical concepts such as fractions, percentages, algebra, and their applications in business. It covers basic statistics, including data organisation, measures of central tendency, dispersion, and spreadsheet analysis. Probability concepts, including axioms, distributions, and the standard normal curve, are examined to strengthen quantitative decision-making skills.
Module Fees: \$130	
Module Credits: 10	

Legal Aspects of Business

Code: B5-LAB-20	This module introduces the origins of law and the structure of legal systems, with particular reference to Botswana. It examines both criminal and civil law and explores key areas such as contracts, sales, leases, credit agreements, insurance, agency, employment, intellectual property, negotiable instruments, and business enterprises, providing essential legal foundations.
Module Fees: \$130	
Module Credits: 10	

Fundamentals of Business and Finance

Code: A5-FBF-20	This module introduces fundamental concepts in business and finance, covering management, organisational structures, strategy, risk management, corporate governance, and financial information. It also explores personal finance, the role of professional accountants, and the influence of economic factors on business operations, equipping students with essential knowledge for informed decision-making.
Module Fees: \$130	
Module Credits: 10	

Business Management 1

Code: B5-BM1-20	This module introduces business management as a discipline, addressing core concepts, economic systems, and stakeholder roles. It examines the business environment, management functions, and key areas including operations, finance, human resources, and marketing. Leadership principles and theories are explored to build a foundation for sound business strategy and decision-making.
Module Fees: \$130	
Module Credits: 10	

SEMESTER 2

Principles of Marketing

Code: B5-PMK-20	This module introduces the fundamentals of marketing, covering the 7 P's, consumer behaviour, and decision-making processes. It examines market research, segmentation, and targeting strategies, alongside product development, pricing, and promotion. Students gain essential skills to apply marketing principles effectively in dynamic and competitive business environments.
Module Fees: \$130	
Module Credits: 10	

Business Mathematics and Statistics 2

Code: B6-BS2-21	This module develops essential mathematical skills through topics such as quadratic equations, functions, differentiation, and integration. It introduces statistical concepts including sampling distributions, confidence intervals, hypothesis testing, and chi-square tests, while also covering regression analysis, decision theory, and time series forecasting to support data-driven decision-making in business and research.
Prerequisite: B5-BS1-17	
Module Fees: \$130	
Module Credits: 10	

Introduction to Financial Accounting

Code: A6-IFA-25	This module introduces the principles of accounting within its conceptual and regulatory framework. It covers accounting systems, ledger maintenance, trial balances, bank reconciliations, and control accounts. Students will develop the ability to prepare financial statements for various entities, including sole traders, partnerships, companies, and unincorporated organisations, alongside manufacturing accounts and cash flow statements.
Module Fees: \$130	
Module Credits: 10	

Business Ethics and Assurance

Code: A6-BEA-20	This module examines the role of external auditing within its regulatory framework, emphasising fraud detection and reporting responsibilities. It covers pre-audit investigations, audit planning, risk assessment, materiality, and auditors' legal liability. The module also distinguishes financial statement audits from the assurance of sustainability reports, highlighting emerging professional responsibilities.
Module Fees: \$130	
Module Credits: 10	

Business Management 2

Code: B6-BM2-20	This module provides a foundation in management principles, addressing managerial roles, strategic planning, decision-making, and organisational structures. It explores human resource management, change management, diversity, and logistics. Emphasis is placed on adapting to environmental shifts, utilising information systems, and developing skills for sustainable competitive advantage in contemporary business contexts.
Prerequisite: B5-BM1-20	
Module Fees: \$130	
Module Credits: 10	

Computerised Accounting 1

Code: A6-CP1-20	This module introduces computerised accounting systems, focusing on transaction processing and enterprise resource planning (ERP). It addresses cybercrime, fraud prevention, security controls, and auditing of technology-based systems. Revenue and expenditure cycles, together with system development, analysis, design, and implementation, are also examined.
Module Fees: \$130	
Module Credits: 10	

SEMESTER 3

Taxation 1

Code: A6-TA1-20	This module provides an understanding of taxation systems with particular reference to Botswana. It examines different types of taxes, principal tax laws, and taxpayer obligations. Key areas include tax procedures, objections and appeals, withholding taxes, gross income, deductions, employment income, capital allowances, and taxable income for individuals, sole traders, and partnerships.
Module Fees: \$130	
Module Credits: 10	

Microeconomics

Code: B6-MIE-17	This module introduces key economic principles, including scarcity, choice, and the functioning of economic systems. It examines demand and supply, market equilibrium, and elasticity, alongside firm behaviour, production costs, and market structures. Externalities, public goods, and income distribution are also addressed, offering insights into economic decision-making and policy development.
Module Fees: \$130	
Module Credits: 10	

Cost Accounting

Code: A6-COA-20	This module introduces key costing principles, including cost behaviour, classification, and the accounting of materials and labour. It covers inventory valuation, overhead allocation, marginal and absorption costing, as well as job, batch, and process costing. Cost-volume-profit analysis, standard costing, variance analysis, and budgeting are also examined to support effective cost control.
Module Fees: \$130	
Module Credits: 10	

Computerised Accounting 2

Code: A7-CP2-25	This module provides practical training in computerised accounting systems, focusing on company setup, system navigation, and core functionalities. It covers customer and supplier account management, inventory and general ledger configuration, and financial transaction processing. Emphasis is placed on error correction, automated invoicing, financial reporting, and bank reconciliations to improve efficiency and accuracy.
Prerequisite: A6-CP1-20	
Module Fees: \$130	
Module Credits: 10	

Corporate Administration 1

Code: A6-CA1-20	This module examines strategic and functional administration with an emphasis on corporate governance, organisational hierarchies, and best practices. It explores information management, confidentiality within legal frameworks, and the influence of technological advancements. Human resource functions, employer–employee relations, and contractual rights within corporate contexts are also critically analysed.
Module Fees: \$130	
Module Credits: 10	

Financial Accounting 1

Code: A6-FA1-17	This module introduces accounting principles, financial reporting, and corporate structures. It examines company formation, financial statement preparation, and adjustments in line with IFRS and IAS standards. Key areas include limited liability companies, partnerships, ratio analysis, and asset management, with emphasis on reporting frameworks and financial information for effective decision-making.
Prerequisite: A6-IFA-25	
Module Fees: \$130	
Module Credits: 10	

SEMESTER 4

Macroeconomics

Code: B6-MAE-17	This module introduces macroeconomic principles, covering economic perspectives, national income measurement, and business cycles. It explores aggregate demand and supply, fiscal and monetary policies, and the role of central banks. Additionally, it examines inflation, unemployment, and international trade, highlighting the impact of economic policies on national and global markets.
Prerequisite: B6-MIE-17	
Module Fees: \$130	
Module Credits: 10	

Audit and Assurance

Code: A6-ASS-20	This module explores key auditing principles, emphasising responsibilities, risk assessment, and response strategies. It covers gathering audit evidence, utilising the work of others, and forming audit conclusions. The module also examines audit reporting, ensuring compliance with standards and enhancing the reliability of financial information for stakeholders.
Prerequisite: A6-BEA-20	
Module Fees: \$260	
Module Credits: 20	

Financial Management 1

Code: A6-FM1-20	This module explores financial management principles, focusing on investment, financing, and dividend decisions. It examines the roles of financial managers, working capital management, credit risk, and short-term financing. Additionally, it covers capital budgeting, the time value of money, and the risk-return relationship, equipping learners with essential financial decision-making skills.
Module Fees: \$130	
Module Credits: 10	

Corporate Secretaryship

Code: A6-CSC-20	This module examines the formation, administration, and management of companies, covering types, incorporation, and regulatory provisions. It explores share capital, capital maintenance, and financial reporting. Additionally, it highlights the roles and responsibilities of members, directors, and company officers, ensuring compliance with legal and governance frameworks for corporate operations.
Module Fees: \$130	
Module Credits: 10	

Financial Accounting 2

Code: A7-FA2-25	This module focuses on key financial reporting standards, including IAS 38 for intangible assets, IAS 17 for leases, IAS 2 for inventories, and IFRS cash flow preparation. It explores revenue recognition, financial instruments, and their measurement, ensuring compliance with IFRS principles for accurate financial reporting and decision-making.
Prerequisite: A7-FA1-17	
Module Fees: \$130	
Module Credits: 10	

SEMESTER 5

Taxation 2

Code: A7-TA2-20	This module provides an overview of tax systems, with particular reference to Botswana and Lesotho. It covers key taxes, legislation, and taxpayer obligations, including individual and corporate liabilities, chargeable gains, withholding taxes, and VAT. It also examines dispute resolution processes, such as objections and appeals, within a broader regulatory context.
Prerequisite: A6-TA1-20	
Module Fees: \$260	
Module Credits: 20	

Management Accounting

Code: A7-MAC-17	This module introduces management accounting concepts, focusing on cost analysis, budgeting, and decision-making. It explores marginal vs. absorption costing, activity-based costing, and cost-volume-profit analysis. Additionally, it covers budgeting, variance analysis, and short-run decision-making, equipping learners with techniques for effective cost control and financial planning in business operations.
Prerequisite: A6-COA-20	
Module Fees: \$260	
Module Credits: 20	

Financial Reporting

Code: A7-FIR-13	This module explores key accounting standards, including IAS 8 for accounting policies, IAS 23 for borrowing costs, and IAS 20 for government grants. It covers income tax accounting (IAS 12), earnings per share (IAS 33), and group financial statements, including consolidation (IAS 27) and accounting for associates (IAS 28).
Prerequisite: A7-FA2-25	
Module Fees: \$260	
Module Credits: 20	

SEMESTER 6

Financial Management 2

Code: A7-FM2-20	This module explores business financing options, cost of capital, and valuation principles. It examines factors affecting capital costs, asset and business valuation methods, and risk management techniques. Learners will develop skills to evaluate financing alternatives, optimise capital structures, and apply risk mitigation strategies for effective financial decision-making.
Prerequisite: A6-FM1-20	
Module Fees: \$130	
Module Credits: 10	

Research Methods in Business

Code: B7-RMB-20	This module explores business and management research, covering epistemology, research strategies, ethics, and proposal development. It examines literature review, research design, data collection methods, and SPSS for analysis. Additionally, it addresses time and resource management, data presentation, and report writing, equipping learners with essential research skills for academic and professional inquiry.
Module Fees: \$130	
Module Credits: 10	

Company Law

Code: A7-COL-20	This module provides an overview of legal systems, with particular reference to Botswana. It examines court structures, sources of law, and statutory interpretation. Key areas include contract and employment law, company formation, agency, partnerships, and corporate governance. The module also explores capital financing, insolvency, and the legal implications of fraud and criminal conduct in business operations.
Prerequisite: B5-LAB-20	
Module Fees: \$260	
Module Credits: 20	

Business Analysis and Valuation Using Financial Statements

Code: A7-BAV-20	This module explores business analysis and valuation using financial statements. It covers financial reporting's role in capital markets, strategy and accounting analysis, financial and prospective analysis, and valuation techniques. Learners will apply forecasting, ratio analysis, and discounted cash flow models, with insights into mergers, acquisitions, and corporate financial decision-making.
Prerequisite: A7-FA2-25	
Module Fees: \$130	
Module Credits: 10	

SEMESTER 6 ELECTIVE GROUP (CHOOSE ONE)

Advanced Taxation

Code: A7-TA3-25	This module focuses on the scope of income tax, including employment, self-employment, property, investment, and trust income. It explores tax on gains, losses, and inheritance, along with computing taxable income and liabilities. Students will learn to apply exemptions, minimise tax liabilities, and assess taxation's impact on financial decisions.
Prerequisite: A7-TA2-20	
Module Fees: \$130	
Module Credits: 10	

Advanced Audit and Assurance

Code: A7-AS2-20	This module focuses on the audit engagement process, including pre-audit investigations, planning, risk assessment, and materiality. It examines audit procedures, evidence gathering, and financial statement reporting responsibilities. Students will explore auditors' legal liabilities, fraud detection, and differences between auditing financial statements and providing assurance on sustainability reports.
Prerequisite: A6-ASS-20	
Module Fees: \$130	
Module Credits: 10	

Risk Management and Insurance

Code: A7-RMI-20	This module introduces risk and insurance, covering risk types, classification, and management principles. It explores risk identification, measurement, and planning, along with legal principles in insurance contracts. Students will learn life and non-life insurance techniques, insurance company management, government regulations, and risk management practices within the insurance industry.
Prerequisite: B6-BS2-21	
Module Fees: \$130	
Module Credits: 10	

SEMESTER 7

Public Sector Financial Reporting

Code: A7-PSR-20	This module focuses on public sector financial reporting standards, including cash and accrual basis accounting under IPSAS. It explores financial statement presentation, cash flow reporting, accounting policies, and asset management. Students will learn about consolidation, intangible assets, revenue from non-exchange transactions, leases, and first-time adoption of accrual-based IPSAS standards.
Prerequisite: A7-FA2-25	
Module Fees: \$130	
Module Credits: 10	

Research Project 1: Proposal Writing

Code: A7-RP1-20	This module guides students in developing a research proposal, covering problem identification, background, and objective formulation. It includes literature review, methodology selection, research instrument design, ethical considerations, data analysis methods, budgeting, and timeline construction. Students will gain essential skills for structuring and planning a scientific research project effectively.
Prerequisite: B7-RMB-20	
Module Fees: \$130	
Module Credits: 10	

Corporate Governance

Code: B7-CGV-20	This module explores corporate governance, its principles, stakeholders, and global trends. It covers the benefits of good governance, warning signs of inefficiency, and governance in family-owned enterprises. Students will examine shareholder rights, board responsibilities, audit committees, financial reporting governance, and the OECD principles, fostering ethical and effective corporate leadership.
Module Fees: \$130	
Module Credits: 10	

Corporate Administration 2

Code: A7-CA2-20	This module focuses on employment law, workplace compliance, and health and safety regulations. It explores company wellness policies, retirement funding, and pension scheme administration. Students will also examine risk management principles, asset management, acquisition, protection, and facilities management, emphasising their role in achieving organisational objectives and operational efficiency.
Prerequisite: A6-CA1-20	
Module Fees: \$130	
Module Credits: 10	

Entrepreneurship and Innovation

Code: B8-ENI-20	This module explores entrepreneurship and innovation, covering enterprise development, opportunity discovery, and business planning. It examines innovation principles, feasibility assessment, business modelling, and disruptive technologies. Students will learn to validate risks, market size, and pricing while developing entrepreneurial teams, fostering creativity, and building sustainable, innovative ventures.
Module Fees: \$260	
Module Credits: 20	

SEMESTER 8

Professional Practice In Accounting

Code: A7-PRA-20	This module provides students with industry attachment for hands-on experience in accounting. Assessment emphasises supervision, a final paper, and a portfolio of evidence. Students will demonstrate key competencies, balance theory with practice, and engage in academic discourse to enhance their professional skills in real-world accounting environments.
Prerequisite: 240 Credits	
Module Fees: \$520	
Module Credits: 40	

Research Project 2: Dissertation

Code: B7-RP2-20	This module guides students in conducting independent research at the honours level. It covers problem identification, literature review, research design, data collection, analysis, and interpretation. Students will develop a well-structured dissertation, drawing conclusions and making recommendations, demonstrating their ability to apply research skills to real-world issues.
Prerequisite: B7-RP1-20	
Co-requisite: None	
Module Fees: \$260	
Module Credits: 20
